The Great American Dream

In May of 1999, Alisa and I began making molds in our home, making product in our garage and would display our creations in our patio garden in Pacific Beach. It was a stretch to imagine our endeavor would amount to anything more than Swap Meets and Farmers Markets. While driving way to far to do home shows and "tailgate cold calls", we would frequently discuss the type of company we desired to become. Our very first thought was always highest quality, followed by original designs and reliable service. With these core business values recognized, we quickly realized our goal was to become the best. Combine this unified vision of greatness with our amazing companionship, add some perseverance, sacrifice and obviously, the support of our devoted customers and more than a decade later the result is a developed, innovative and reputable company.

We feel immense gratitude to each and every garden shop & garden center, boutique & gallery, specialty store & catalog company for their continued patronage and ever increasing demand. Due to this loyalty and our core business values, Designer Stone has continued to grow year after year. In return for this dedication, we vow to follow our vision through; to continuously enhance our product, to create the next great design, to value all business relationships and to become the most original and durable garden art company.

If you are unfamiliar with our company, please take a few moments and peruse our catalog. We would be glad to earn your business. If you decide to merchandise our American hand-made garden art, I can tell you with 100% certainty you will be satisfied with our quality, creativity and service. Please contact us with any inquiries, thoughts or if you would like to place an order. We are always here to help.

Since our time in Pacific Beach, we have built a bigger and better garden and garage in Ramona. We have married, now have three amazing children, a rewarding business with a dedicated crew and our own store front called DS Garden Shop. The accomplishments we have attained has created a strong sentiment of gratitude and fulfillment and thus we believe we are living The Great American Dream.

From my family to yours, Michael E. Gentilucci, Owner

Our Product

All of our garden art is proudly hand-crafted in the U.S.A.

Designer Stone produces two completely diverse styles of cast-stone garden art. We spent our early years reproducing antiques and statuary and thus we offer 100's of *traditional* garden accessories, we refer to as "Treasured Finds". Designer Stone offers you the conventional garden essentials; *Containers, Animals, Birdbaths, and of course, Statues*. However, it is in the last several years our most distinctive concepts have come to fruition; *Meditating Creations, Spirit Stones, Head Planters, Book Saucers* to name a few. These original lines are known as "The Gentilucci Collection". These sculptures have a spiritual reverberating quality, they are typically amusing, expressive, inspirational and/or interactive. They usually enjoy a message, often written, sometimes implied and occasionally profound. It is the type of Garden Art which evokes a glimmering smile, it can remove life's pressures for a few precious moments and can remind us of who we are and what we live for.

Regardless of origin, all of our product is constructed of the highest grade Portland cements, a specialized aggregate and a plethora of strengthening additives. Every batch of concrete produced is treated as though we're making a soufflé. Each ingredient is measured down to the ounce and followed as you would a recipe. Once blended these materials allow our finished product to cure to a level three times stronger than a buildings foundation. This means our product is ultra durable and can endure outdoors in the harshest climates ranging from freezing Colorado winters to arid Arizona summers.

Our patinas are achieved by method of Integrated Coloring. This coloring is throughout every piece of product in its entirety, meaning our colors can never bubble, peel, or flake as topical applications do. Furthermore, our colors are much more vibrant and will never fade. All of this means consistency is accomplished from batch to batch, year to year.

Once our cast stone garden art is hand finished and cured, we apply a top coat of clear water repellent and protective sealant. This provides our product with even greater durability and you and your customers many more years of enjoyment.

We currently offer four original patinas, each earth-tone is available in a stylish Glazed finish.

About Zen Creations

When customers hold our sculptures, feel the quality,...

...caress the artwork and absorb the meaning, a smile magically appears. Once they notice the product is American made, the only questions remaining is where to place it and who else merits an amazing feel good gift.

Created by Michael Gentiluoci, Zen Creations have quickly become our most popular original line and the branding of our company. They encompass all Michael strives to achieve with his artwork; crafting amusing, expressive & inspirational sculptures.

There are many reasons why customers are drawn to these sculptures, whether it is a common affection towards a particular creature or a more complex spiritual connection. These tranquil creations share a few essential traits which make them universal and visually appealing to people of all walks of life. Each sculpture possesses a sense of calm, an abnormally large head and a robust belly...this mishmash of delight simply makes people happy. They each have personalized Chinese characters etched into the back of their kimono. The symbol represent each beings primary attribute. Dogs are commonly recognized as loyal and therefore the characters associated with our Meditating Dog sculpture is "loyalty".

Some of our sculptures are minimalistic in style, whereas others wear jewelry, adornments or have a decorative embroidery. Although each sculpture is defined by their unique differences, they also completely compliment each other, whether you match up a Meditating Lion, Tiger & Bear or pair up a Angel with a Gargoyle. People collect Zen Creations for many different reasons, but most agree, the allure resides in a combination of connectivity and the personalized uplifting message which accompanies each sculpture. You will also notice each Zen Creation is stamped with our Designer Stone seal, as all of our original sculptures are copyright protected.

Currently all Zen Creations are available in Medium (6"x5"). The more popular styles are offered in Small (3"x2.5") and Large (9"x8"). You can build your own order, hand pick your colors or choose from dozens of easy order packages which can save you time and money, plus save even more with reduced shipping. Packages vary in size from small and shippable to complete display systems, including rack and signage. See a few of our most popular on page 9.

So what's next? Look for a New extra large size and a whole new category of Zen Creations plus check out our Meditating Dragon w/ Cats Eye Gazing Ball

Hopscotch Step Stones

Each step is engraved with a verse from
the traditional Magpie Rhyme

One for Sorrow,
Two for Joy,
Three for a Girl,
Four for a Boy,
Five for Silver,
Six for Gold,
Seven for a Secret
Never to be Told,
Eight for a Wish,
Home for a Kiss

A path from here to there (and back)
has never been sooo much fun.

HERB BOX TITLES

Herb Garden

So Many Seeds ~ So Little Time

A Rose by any other Name would Smell as Sweet

Me Thinks my own Soul must be Bright Invisible Green

The Earth Laughs in Flowers

Good Habits you Cultivate, Bad Habits Grow Wild

Flowers of Tomorrow are the Seeds of Today

As the Garden Grows, So Does the Gardener

A Garden is a Friend you can Visit Anytime

In our Bodies, In this Moment, Live the Seeds of Change

From Tiny Acorns Mighty Oaks Grow

If Life Deals you Tomatoes, Make Bloody Marys

Tickle the Earth with a Hoe & She Laughs with Harvest

Mom's Garden

Grandma's Garden

My Very Own Garden
